

Launch of AGORES Website

www.agores.org

(Brussels, Belgium, 02/17/2000) AGORES, the official European Union website for Renewable Energy Sources, is to be launched on April 6th, 2000.

The AGORES website is aiming to be the most extensive renewable energy knowledge centre and gateway for Europe. The site is presently being managed by LIOR INTERNATIONAL (<http://www.lior-int.com>) on behalf of the Directorate-General for Energy and Transport (DG-TREN) of the European Commission.

View the site (from April 6th) at: <http://www.agores.org>

The website features the following main sections :

- Policy : EC and National strategies for the increased implementation of RES
- Fields : Information on all areas of Renewable Energy activity
- Sectors : Information on the various sources of Renewable Energy
- Who's Who : Extensive directory of key players from around the world

AGORES also contains the following information :

- News : Regularly updated stories, reports and happenings
- Events : Upcoming conferences, exhibitions, trade shows etc.
- Projects : Searchable project database
- Community programmes : Information on EU funding programmes
- Website links : An extensive database of recommended websites
- Publications : A comprehensive list of relevant publications

Please send any relevant digital information for inclusion in the site.
